ROUGH GRADING CERTIFICATION

(Complete this section prior to Certificate of Occupancy or final inspection).

Civil Engineer Statement

I hereby certify that final grading has been completed in conformance with the approved grading plan, including building pad drainage, installation of drainage facilities, finish surface elevations, and final grading of slopes. All improvements are consistent with the City of Hesperia's adopted codes.

Engineer Name: _____

RCE #: _____ Exp. Date: _____

Signature: _____ Date: _____

Company: _____

Soils Engineer Statement

I hereby certify that all final earthwork, including and additional compaction, slope stabilization, and related measures completed after rough grading, comply with applicable soils report recommendations and the City's requirements.

Engineer Name: _____

RCE #: _____ Exp. Date: _____

Signature: _____ Date: _____

Company: _____

Grading Contractor Statement

I certify that the grading was completed in accordance with the approved grading plans, the City's grading ordinance, and the recommendations of the Civil Engineer and Soils Engineer. This certification reflects all field work completed under my supervision for the final grading phase.

Contractor Name: _____

License #: _____ Exp. Date: _____

Signature: _____ Date: _____

Company: _____

Landscape Architect / Engineer Statement (if required)

At the discretion of the Building Official, a certification may be required from the Landscape Architect or Engineer confirming that slope planting and irrigation systems have been installed and are functioning to control erosion in accordance with the approved plans and applicable codes.

Name: _____

License #: _____ Exp. Date: _____

Signature: _____ Date: _____

Company: _____

Notes and Disclaimers

- This form must be wet signed and stamped by each applicable licensed professional. Each licensed professional may provide their own signed BS-011 form.
- Final grading certification must be submitted prior to scheduling final inspection or Certificate of Occupancy.
- Any deviations from the approved plans must be documented and approved by the City of Hesperia prior to certification.
- Compliance with erosion control, slope stability, and surface drainage measures are required.
